

CL in ENG - Roman Baranovskii

Position: **Frontend Engineer (m/w/d) - FinTech**

Link: <https://www.linkedin.com/jobs/view/3538572413/>

Dear Hiring Manager,

I am excited to apply for the **Frontend Engineer** position at **FinTech**. As a recent graduate with a Bachelor's degree in Computer Science, I am eager to start my career in the field and join a team of talented developers.

With experience in the development and implementation of web applications using **HTML5, CSS3, and JavaScript**, I have also worked with technologies such as **React**. Additionally, I have experience with **Bootstrap and figma** and familiarity with responsive web design implementation. I am also familiar with version control and I am willing to research and learn the skills needed to excel in the role.

While I may not have professional experience, I am confident in my ability to learn quickly and contribute to the team. I am passionate about front-end development and am always eager to take on new challenges and learn new skills.

I possess good problem-solving and troubleshooting skills. I am able to multitask, prioritize, and work independently. Furthermore, I have an intermediate level of English language (both verbal & in writing) and am confident in my ability to communicate effectively in a professional environment.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to **FinTech**.

Sincerely,

Roman
